

The powerful lapping machine is perfectly appropriate for polishing and refining watch cases, bracelets and other workpieces. With an easy handling of both the inclinable support table and the rotatable hand piece guided on ball bearings, you achieve in a short time professional results.

**Lapping machine LM1 (230V)**  
Art. No.: 40000

**Support table**  
Art. No.: 40100

**Hand piece**  
Art. No.: 40200

**Technical details:**

Disc Ø:	240 mm	Hand piece Ø:	16 – 45 mm
Revolution speed:	60 - 1.400 rpm (stepless)	HP inclination:	± 45°
Output:	0,37 KW (0,5 PS)	HP rotation:	360°
Dimension:	570 x 330 x 300 mm	HP initial height:	120 mm
Connection:	230V / 50Hz	Table inclination:	± 45°
Weight:	25 kg / 4 kg / 1.5 kg	Table height:	Adjustable
